NovaTel Customer Handbook

This handbook explains plans, bills, roaming, troubleshooting and cancellation for NovaTel mobile customers.

1. Plans and billing

1.1 Plans

Plan	Monthly price	Data
Nova Basic	$25	5 GB
Nova Plus	$40	20 GB
Nova Max	$65	Unlimited

1.2 Billing cycle

Bills are issued on the 1st of each month and are due within 15 days. A late fee of $5 is added to bills paid after the due date.

Charges can be disputed within 60 days of the bill date by calling customer support or using the NovaTel app. Disputed amounts are not subject to late fees while the dispute is open.

2. Roaming

International roaming is charged at $6 per day on days when you use data, calls or messages abroad. The charge is capped at $18 per billing cycle on Nova Plus and Nova Max.

Roaming charges are capped at $18 per billing cycle for Nova Plus and Nova Max customers. Nova Basic customers pay $6 per day without a cap.

3. Troubleshooting

3.1 No signal

If your phone shows no signal, first restart the phone, then switch airplane mode on for 10 seconds and off again, then reinsert the SIM card. If the problem continues, check the outage map for your area.

3.2 Slow data

Slow data can be caused by network congestion or a reached data limit. Check your usage in the app. After the included data is used, speeds are reduced to 1 Mbps until the next billing cycle.

4. Cancellation

Customers who cancel within the first 12 months of a contract pay an early termination fee of $120. After 12 months there is no fee. Cancellations are handled by a customer support specialist.

Credits approved by customer support appear on your bill within two billing cycles. Credits are not paid out in cash.
